

# Yellow Negro Worker

"The AFL has done more to raise the standards of the Negro worker than any other organization in America. The 650,000 negro AFL members know this to be true. In response to the requests of Southern Negro labor leaders, the AFL Southern Policy Committee has issued this publication as a message to the millions of as-yet-unorganized negro workers of America. We make you no wild promises—but invite you as free workingmen and women to join with us and fight for the rights of all workers irrespective of race, creed, or color."

*Sincerely yours,*

**I. P. CONNALLY**
